Question:

What are the Part-66 licence categories?

Answer:

In a Part-145 approved organisation, the different categories of Part-66 licences are:

LICENCE CATEGORY	For certifying the release to service of work performed on aircraft:	What:
	Minor scheduled line maintenance and simple defect rectification Divided into the following subcategories:	
A	<ul style="list-style-type: none"> • A1 Aeroplanes Turbine; • A2 Aeroplanes Piston; • A3 Helicopters Turbine; • A4 Helicopters Piston. 	Line Maintenance
	Maintenance on aircraft structure, power plant and mechanical and electrical systems, avionic systems requiring simple tests to prove their serviceability and no troubleshooting Divided into	
B1	B1.1 for turbine aeroplanes, B1.2 for piston engine aeroplanes, B1.3 for Turbine helicopter and B1.4 for piston engine helicopter	Line Maintenance
B3	Maintenance on aeroplane structure, power plant and mechanical and electrical systems; and on avionics systems requiring only simple tests to prove their serviceability and not requiring troubleshooting limited to non-pressurized aeroplanes of 2 000 kg MTOM and below.	Line Maintenance
