PRIVATE PILOT LICENSE

EASA PROGRAM

WE BUILD --- EXPERIENCES

Flying Academy's mission is to make YOU the most professional, skilled and dedicated pilot. We are completely equipped for the challenges of employment opportunities of airlines all over the world.

Our mission is a commitment to our students based on personal approach and care, guide them step by step, close monitoring, and adapting the training.

This is our promise!

OUR STORY

... SO FAR

Perfect safety record,
unprecedented student support,
and best in class training environment is our promise.

International TRAINING

We are Flying Academy - International Flight Training center with more than three decades of experience, founded by airline pilots for future airline pilots.

Perfect SAFETY

The regulation in the United States (Federal Aviation Administration) are very strict about aviation safety. Our fleet is maintained at the highest levels of safety. Flying Academy prioritizes and promotes safety culture in all aspects of its operations.

Our FLEET

Flying Academy, one of the leading global flight schools, is proud to present our fleet. It consists of single and multi-engine aircraft. The whole fleet, at both continents where we operate, consists of over 42 aircraft.

Online TRAINING

With Flying Academy's brand new online classrooms, you can start your theoretical training without leaving the comfort of your home, in a decent amount of time!

EASA PPL (A)

WHAT IS EASA PPL (A)?

The EASA Private Pilot License Course is the first step into your aviation career as a pilot! Our new Online PPL program offers students the opportunity to complete their theoretical training remotely, from the comfort of your home. Specially designed for applicants with zero to very little flight experience. Complete your full theoretical training and fly over to one of our bases to finish your flight training and get your Private Pilot license!

Connect with our professional talented pilot instructors in our virtual innovative classrooms, and start your PPL theory training, or refresh your current knowledge in real-time with no geographical restrictions!

COURSE **BENEFITS**

SAVE YOUR TIME WITH ONLINE CLASSES

You will start with online PPL Theory from the comfort of your home. Afterwards, you shall come to the school to carry out the flight training portion of your course.

DO YOUR FIRST AVIATION STEP

You can start with our discovery flight or directly enroll in our Private Pilot License course which is the first step into the world of aviation. Become a Pilot in no time with our PPL course and soar the skies for leisure.

SAVE YOUR VALUABLE FUNDS

This organisation of training will decrease the costs of the training, providing you with high-quality theoretical training following the current trends, while allowing you to save on the living costs.

WHAT IS **INCLUDED**

You will have up to 60 hours of online theoretical training, which consists of:

- Lecture presentations conducted by appointed instructors (30 hours)
- In-depth consultations held (15 hours)
- Seminars and Long Briefings to incorporate your practical and theoretical training! (15 hours)
- Stimulating assignments via Google Classroom
- Progress check monitored by your student advisor
- Temporary access to all class recordings
- Access to your eLearning (LMS) portal where you will find all interactive study material.
- Possibility of doing your exams at school or any approved Civil Aviation Authority Center.

WHAT ARE THE **ADVANTAGES**

- Our virtual classroom is set up with the latest technological advancements to ensure a prime level of learning.
- Students can attend lectures, go through the reading materials, complete assignments, and fulfill their theoretical requirements.
- No geographic restrictions
- Students can save tremendous time and funds on their overall pilot training!
- Courses are broadcasted LIVE so that students may voice questions and enable optimum interactivity
- At the end of each “class”, students have the opportunity to partake in guided discussions to clarify any misunderstandings they might have concerning the lecture.

COURSE ENTRY

REQUIREMENTS

**TO BE AT LEAST
16 YEARS OLD**

**TO BE AT LEAST CLASS
2 MEDICAL HOLDER**

**TO BE PROFICIENT IN
THE ENGLISH LANGUAGE**

**TO HAVE SUFFICIENT
KNOWLEDGE OF
MATHEMATICS & PHYSICS**

**TO PASS OUR INITIAL
ASSESSMENT**

PRACTICAL TRAINING

Flight training is performed on a single engine piston (SEP) aircraft according to visual flight rules (VFR). At the end of the flight training, you will have at least 45 hours total time.

- Dual hours are divided into 3 stages and cover basic airplane handling, take-offs and landings, advanced maneuvers, emergency procedures, simulated instrument flying and navigation flying. You will cover 35 flight hours dual with an instructor.
- Solo flight is one of the milestones in your training. 10 hours of solo flights includes local solo flights and solo navigation crosscountry flights under supervision of the flight instructor on the ground.

THEORETICAL TRAINING

The course covers all 9 subjects of the PPL syllabus. The applicant has to go through ground training covering:

- Meteorology
- Navigation
- Communications
- Aircraft General Knowledge
- Principles of Flight
- Air Law
- Flight Performance and Planning
- Human Performance and Limitations
- Operational Procedures

EXAMINATIONS

The theoretical examinations are conducted at the Civil Aviation Authority of your choice.

The practical exam is performed under the supervision of a CAA-authorized examiner.

You will need to demonstrate your ability to:

- Operate the airplane within its limitations
- Complete all manoeuvres accurately and smoothly
- React according to the procedures in case of emergency
- Exercise good judgment and airmanship
- Apply aeronautical knowledge
- Maintain control of the aircraft

TRAINING LOCATIONS

OUR LOCATIONS

With our international community, we also have our training locations spread across the globe. We have four bases in the heart of Europe. For this course you can join us in following bases.

PRAGUE CZECH REPUBLIC

The Czech Republic is the perfect location for both practical and theoretical training. Flying Academy is the first choice of pilot training for future Professional or Private Pilots from all continents.

VIENNA - BAD VÖSLAU AUSTRIA

Vienna, Austria is the perfect location for your professional pilot training. With new modern equipment, exclusive studios and technology, combined with our highly trained and experienced instructors.

BRNO WEST FALCON FIELD CZECH REPUBLIC

Located in the heart of Europe, the Brno Falcon Field allows students to explore all different regions of Europe from the cockpit by being in the middle ground between Eastern & Western Europe

PORTIMAO- PORTUGAL

Flying Academy in Portimao, Portugal, is a great place for learning to fly. It's right on the beautiful Algarve coast, with lots of sunny days and clear skies - perfect for flying. The area is beautiful and fun to explore, making it a fantastic spot for pilot training.
